

Dear members of the academic community,

I would like to remind you that the additional elections to the Academic Senate of the Faculty of Science of the University of South Bohemia will begin next Monday, May 10, 2021 at 10:00.

The elections will be held online at:

<https://volby.jcu.cz>

Here you log in with the same login details as for IDM (IS Stag).

6 candidates entered the election:

Mgr. Lucie Ambrožová (biological section)

Bc. Zuzana Bumbová (technical section)

Petr Lunga (biological section)

Mgr. Ivana Šímová (non-biological section)

Ing. Ondřej Trtílek (technical section)

Mgr. Michaela Uhrová (biological section)

As it is not possible to organize a meeting of the academic community where the candidates would introduce themselves, I attach their medallions, where they shortly introduce themselves.

Only one senator is elected from the proposed candidates. The Student Chamber consists of five senators, three are elected for the biological section, one for the non-biological section and one for the technical section (for details, see the attached Electoral and Procedural Rules). Due to the composition of the student chamber of the AS PŘF JU, the position in the technical section is being supplemented in the actual elections. From the unelected candidates who receive more than 5 votes, a list of alternates is created according to the number of votes obtained, regardless of membership in the section.

The election will take place from **Monday 10.5.2021 10:00 to Tuesday 11.5.2021 14:00**.

The Electoral Commission set up a team in MS Teams for the purposes of this election (team code:

Here you can contact your members of the election commission, who will be present on Monday, May 10, 2021 from 10:00 to 16:00 and on Tuesday, May 11, 2021, from 8:00 to 14:00, with any questions you may have about the operation of the election application and the election process.

looking forward to a large voter turnout

Petr Veselý

Chairman of the Electoral Commission
