## Research Assistant

Laboratory of *Drosophila* models for neurodevelopmental disorders at the Department of Molecular Biology and Genetics is seeking a candidate for position of research assistant.

### Job description

- Work in molecular biology lab with focus on *Drosophila* (fruit fly) genetics
- Includes laboratory maintenance (maintenance of *Drosophila* lines, preparation of *Drosophila* diet, laboratory glass and plastics)
- Administrative tasks (ordering and registration of material)
- Assistance with research projects (close work with PhD student on generation of transgenic *Drosophila* lines with CRISPR/Cas9-based method – involves molecular cloning, selection and maintenance of transgenic lines)

### Requirements

- Professional education (at least Bsc degree or equivalent or secondary professional education) in laboratory assistance, biomedicine or biology
- Experience with work in molecular biology or *Drosophila* lab is a plus
- Experience with a project administration is also welcome
- Basic knowledge of work with PC (MS Word, Excel)
- Independence, proactive approach, reliability and carefulness
- Good organization and communication skills
- Ability to work in team
- Start date ideally on 1.1.2023 (upon agreement)

### What do we offer

- ✓ 1.0 FTE, 1 year contract with possibility for extension up to 3 years; lower FTE also possible
- ✓ Support for professional development
- ✓ European chart standards for researchers are guaranteed  
<https://euraxess.ec.europa.eu/euraxess/charter-code-researchers>
- ✓ Flexible working hours, 5 weeks of holiday
- ✓ Salary according to standard regulation of Fsci USB with possibility of performance benefits

- ✓ Meals allowance, special mobile services and university kindergarten
- ✓ Language and professional education courses

**Written applications (CV and motivation letter) should be sent to [fenckm00@prf.jcu.cz](mailto:fenckm00@prf.jcu.cz) until 31. 3. 2023.**
